Subject: Strong Recommendation and Forwarding of Financial Grant Proposal for the Agritech Startup led by Goparaju Karthik.

Respected Sir,

I am pleased to forward and strongly recommend the financial assistance proposal submitted by Goparaju Karthik, a final-year B.Tech student of the Artificial Intelligence & Data Science branch (Batch 2023–2027, Regd. No. 248w5a5404), for his Agritech startup.

The proposal has been reviewed and endorsed by Ramesh Kumar P., In-charge of the CSE Innovation Hub, who has verified both the technical validity of the prototype and the feasibility of the budget breakdown. The startup successfully bridges the fields of Agriculture, Mechanical, Automobile Engineering, and Artificial Intelligence to create commercializable agritech solutions.

We support their request for a total grant of Rs. 1,25,000/-, which includes:

1. **Rs. 1,00,000/-** for prototype development and hardware refinement.
2. **Rs. 25,000/-** for Pvt. Ltd. company registration and incorporation.

Developing entrepreneurial capabilities among our students is a key objective of our department. This project has demonstrated high potential, and the grant will facilitate its transition to a registered corporate startup. I request you to kindly sanction the requested funds.

Thank you for your encouragement of our students' entrepreneurial endeavors.

Yours sincerely,

Dr. D. Rajeswara Rao
